

Dear Parents,

I will be taking pictures and videos of the students learning and performing in the classroom and during our concerts. I'd like to post these photos and videos on the website so that family and friends can watch our students in action and we could celebrate students' accomplishments throughout the year! I need your permission to include your child (children) in these pictures and videos.

(I will never include the students' names with the photos and videos).

Please let me know if have any questions or if you need more information.

Thank you.

Olivia
